

HUMAN TRAFFICKING AWARENESS EVENT

TAKEN IN

PART I

Taken In, a documentary theater piece created from stories and interviews with a range of individuals whose lives have been impacted by sex trafficking of minors. This event is intended to inspire creative discussion and action about this often overlooked issue.

THE DIARY OF JASMINE GRACE...

Jasmine Grace is using her voice and story of hope to raise awareness for women who are currently enslaved in sex trafficking and sexually exploitative situations by speaking at schools, colleges, churches and conferences. Jasmine firmly believes that increased education and awareness of this issue can help prevent and abolish it. Jasmine has authored a book titled, **The Diary of Jasmine Grace: Trafficked. Recovered. Redeemed.**

PART II

This book is based on her actual diary entries while being trafficked with present day reflections to show the difference in who she was, compared to who she is today. Books will be available for purchase at the event.
